

To members of The Norwegian
Natural Perils Pool

Circular no. 08/2025

Oslo, 19.06.2025

This circular is intended for specific divisions which will most likely benefit from the information. Additionally, all circulars are posted on the website of the [Norwegian Natural Perils Pool](https://www.naturskade.no). We kindly ask that recipients within member companies ensure the necessary internal distribution.

Index adjustment of pricelist – effective from 1. January 2026

Attached is an index-adjusted pricelist for the valuation of the premium basis for 2026, which applies from 01.01.2026. The price list will also be available on the Norsk Naturskadepool [website](https://www.naturskade.no).

The background to the price list is the [Underwriting Guidelines](#) in the Norwegian Natural Perils Pool, which specify what can be equalized, allocation of costs, reinsurance, etc. The equalization is calculated based on the companies' market share in the Norwegian Natural Perils Pool. In order to achieve the most accurate possible calculation of the companies' market share, a common calculation method has been developed for the premium basis. This is referred to as the fire insurance sum. More detailed information about the calculation of the premium basis can be found on our [website](https://www.naturskade.no).

The pricelist is based on the price index for new detached houses calculated by Statistics Norway (SSB).

The index adjustments for buildings, movable property and machinery were previously issued in [Circular No. 07/2025](#) dated 13. June 2025.

Best regards

The Norwegian Natural Perils Pool

Ståle Solem Ingebrigtsen

Managing Director

(Both, this circular and the attached pricelist, are an uncertified translation from Norwegian. For the avoidance of doubt, if any discrepancies between the Norwegian and English version, the Norwegian version shall prevail.)
